The Deadly South African KOEVOETThis book "Koevoet" by Jim Hooper an American journalist/combat correspondent given access to cover Koevoets combat operations in the bushveld of the northern portion of the then South West Africa (now Namibia) and Angola. This unit is officially known as the South West Africa Police Counter-Insurgency Unit, which operated predominantly in South-West Africa. This outfit was the most effective paramilitary unit deployed against South West Africa People's Organization (SWAPO) fighters, during the South African Border War and is accredited with more SWAPO kills then the South African Defense Force. This book does an excellent and unbiased job at describing the horrors of this guerrilla war, with a particular interest toward the savage tactics used against each other by both sides of the conflict. These graphic details compounded with the human side of the story intertwining patriotism, heroism, brotherhood, honor and the dedication of these men in combat make this book an all-around great military read for all. Additionally, there are many lessons to be learned from this text on counterinsurgency tactics, techniques and procedures that are just as relevant today in the current global war on terrorism that military personnel will find enlightenment. This book is available in a few editions;"Koevoet!" is the South African 1988 first edition release.
