Customer Reviews

I thought that the content of this book was extrodinary. It was about the same as the first one but I always had wondered what the fossil TCG would be like. When I collected the full collection of PKMN cards I was delighted. I share the collection with my friend Philip who is just as mad about Pokemon as I am. The book is very helpful because in my old one I ticked of al of the ones I had so it was a great help. It also gives you lots of Pictures of cards at least not in Japanese so I am venturing towards being the ultimate PKMN trainer. The book describes the cards perfectly so I can develop my skills on playing and defeating against my opponent. I hope everyone who gets the book enjoyed as much as me. Bye!
