A Motion For Innocence: And Justice For All?

Synopsis

It could happen to you! The judicial system has been on a downward spiral due to overzealous prosecutors, entitled judges, and privatization within the incarceration "industry." It is no longer "innocent until proven guilty," as much as it is a contest between two lawyers to see who reigns supreme. The defendants have become pawns in a giant game. Finances, not facts, often determine the outcome of cases. In my story, Sean West finds himself in the midst of such impropriety. Accused of sexual misconduct that he insists never happened, it triggers a series of events that forever changes his life. When a 15 year-old girl steps forward with allegations of abuse, Mr. West has confidence that the judicial system will discover the truth and make the correct decision regarding his future. A judge who berates lawyers, a defense attorney obviously frightened by the judge and a prosecutor with a penchant for trying people with weak evidence turns Sean's trial into a circus. Sean finds that his faith in the judicial system was sorely mistaken as the trial plays out before him. Rather than a search for the truth, it becomes a mission to re-arrange the facts to fit the prosecutor's agenda. *A Motion for Innocence...And Justice for All?* is a revealing story about the reality of justice in America today. Written in first person, this book takes the listener on a journey through the court system and beyond. It is emotional, traumatic and real. If you think it cannot happen to you, think again.

Customer Reviews

Shaun Webb is an excellent writer who captivates our attention. His writing style pulls us into his

story and has us turning the pages faster and faster. There is a major lesson to be learned through this particular story. Are any of us immune to the justice system? Do we really own our own personal freedom or can our freedom be taken away, in the blink of an eye, and our lives turned upside down just because someone else desires attention or isn't getting what they want? Aren't we all supposed to be innocent until proven guilty, beyond a shadow of a doubt, or are the words of a liar more potent to the justice system than our own personal words of truth? The main characters of this story, names changed to protect the innocent and guilty alike, are people just like you and me; every day people who are living in your own neighborhood. Who can you trust? Who can't you trust? The fact that the beginning of this story took place on holy ground, a safe place, at a local private school, a place most of us would trust makes this story even more interesting. Are we safe anywhere? Shaun did an excellent job in writing this important story about how someone can be tried as a sex-offender, judged as a sex-offender, treated as a sex-offender and even when eventually, after much pain and suffering is found to be innocent and still has to live his life in question. Our laws need to be changed to protect the innocent! We must not assume, right off the bat, that if someone is proclaimed as a sex-offender that he really is. Good Job Shaun Webb! You did an excellent job telling this story. This is a topic that most Authors would shy away from, but you were brave enough to bring this important story to our attention.
