Customer Reviews

I bought this book because I am a long time fan of RuPaul's work! I'm even hooked on "Rupaul's Drag Race"...the only reality TV show I watch; it's just TOO entertaining! Too bad this book doesn't live up to all of Ru's former success. I had a much more thorough review written until it got deleted by accident (sadface) so I will just summarize here: Pros:- Beautiful full color photos litter every other page of this book...some very fabulous shos of Ru in all her glamorous glory! - Insights into the workday schedule Ru had for filming her new show. We see just how hard a worker she has to be
and how much effort goes into getting all dolled up in drag.- Ru's ebullient personality shines, especially in the introduction. The best advice the book gives is to always have positive energy and to let go of drama (if you are already someone who believes in "getting what you give" then you can probably go spend your 20 dollars elsewhere)Cons:- 20 dollars for a thin little paperback book?! (the glossy photos must account for this! Glad I got a good deal for it here on Ebay!)- Can be read in less than an hour.-Very little information of actual substance (Do we really care about the fact that you don't eat fruit in tandem with any other foods if it were a miracle diet solution? Do we really want to hear all about how you had a colonoscopy in full detail so that you could get a "Rooty Tooty Fresh and Fruity Booty!"?)- This book is advertised as a guide to style and to life, but the information is very brief and very general.
